Subject: Fall Hunting Season

Hunting Season is scheduled from September to December, initially with bow and arrow, then shot gun. As a precaution, do not walk in fields, meadows or open pastures with your puppy. Most hunters are very cautious and courteous. But, some hunters shoot first and ask questions later when it's too late. Most hunters wear red, orange or yellow to distinguish them from the game. So you can see them, but they cannot always see you and your puppy. When exercising your puppy outside your yard, utilize empty tennis courts, empty parking lots, playgrounds and parks.
